BCPS Policy EFB, JHCF

All schools in the division are participating in Provision 2 under the Richard B. Russell National School Lunch Act (42 USC 1759a). **All enrolled students will be provided a nutritious meal for breakfast and lunch each day at no charge to the household. Although meals will be provided at no charge, extras, or ala carte items, must be purchased with cash, or with funds in the meal account.** Household size and income from meal applications are used to determine eligibility for free or reduced price meal benefits to determine federal reimbursement through Provision 2.

Free and reduced priced meal applications will still be distributed to all households, and can be completed and returned to the school or central office, or you can complete an online version of the form by following the link at <http://www.bath.k12.va.us/food-service/>. You will be redirected to another website to complete the form. **Bath County Public Schools requests that all households complete the free and reduced meals application, even if you do not believe that you qualify. This will ensure maximum federal reimbursement to cover the costs of providing meals to all children at no charge. Again, all enrolled students will be provided a meal at no charge, and for the success of the program you are encouraged to complete a meal application.**

10. Counseling

BCPS Policy IJ

Each school provides the following guidance and counseling services to all students:

- Academic guidance which assists students and their parents to acquire knowledge of the curricula choices available to students, to plan a program of studies, to arrange and interpret academic testing and to seek post-secondary academic opportunities.
- Career guidance which helps students to acquire information and plan action about work, jobs, apprenticeships and post-secondary educational and career opportunities.
- Personal/social counseling which assists a student to develop an understanding of themselves, the rights and needs of others, how to resolve conflict and to define individual goals, reflecting their interests, abilities and aptitudes. Information and records of personal/social counseling will be kept confidential and separate from a student's educational records and not disclosed to third parties without prior parental consent or as otherwise provided by law. Parents may elect, by notifying their child's school in writing, to have their child not participate in personal/social counseling.

No student is required to participate in any counseling program to which the student's parents object.

The guidance and counseling program does not include the use of counseling techniques which are beyond the scope of the professional certification or training of counselors, including hypnosis, or other psychotherapeutic

techniques that are normally employed in medical or clinical settings and focus on mental illness or psychopathology.

Parents are notified annually about the counseling programs which are available to their children. The notification will include the purpose and general description of the programs, information regarding ways parents may review materials to be used in guidance and counseling programs at their child's school and information about the procedures by which parents may limit their child's participation in such programs.

Employment Counseling and Placement Services

The School Board provides to secondary student's employment counseling and placement services to furnish information relating to the employment opportunities available to students graduating from or leaving the schools in the school division. Such information includes all types of employment opportunities, including, but not limited to, apprenticeships, the military, career education schools and the teaching profession. In providing such services, the School Board consults and cooperates with the Virginia Employment Commission, the Department of Labor and Industry, local business and labor organizations and career schools.

If the School Board provides access to one or more of its high schools and contact with such high school's student body or other contact with its high school students during a school or school division-sponsored activity to persons or groups for occupational, professional or educational recruitment, it provides equal access on the same basis to official recruiting representatives of the military forces of the Commonwealth and the United States.

Academic and Career Plans

Schools develop a personal Academic and Career Plan for each seventh-grade student with completion by the fall of the student's eighth-grade year. Plans are developed for students who transfer from other than a Virginia public school into the eighth grade as soon as practicable following enrollment. Students who transfer into a Virginia public school after their eighth-grade year have an Academic and Career Plan developed upon enrollment.

The components of the Plan include, but are not limited to, the student's program of study for high school graduation and a postsecondary career pathway based on the student's academic and career interests.

The Academic and Career Plan is developed in accordance with guidelines established by the Board of Education and signed by the student, student's parent or guardian and school official(s) designated by the principal. The Plan is included in the student's record and is reviewed and updated, if necessary, before the student enters the ninth and eleventh grades. The school meets its obligation for parental involvement if it makes a good faith effort to notify the parent or guardian of the responsibility for the development and approval of the plan.

11. Eating Disorders

from *Code of Virginia* § 22.1-273.2

Eating disorders are serious health problems that usually start in childhood or adolescence and affect both girls and boys. With early diagnosis, eating disorders are treatable with a combination of nutritional, medical, and therapeutic supports. Recognizing the importance of early identification of at-risk students, the 2013 Virginia General Assembly passed a law requiring each school board to provide parent educational information regarding eating disorders on an annual basis to students in the fifth through twelfth grades.

It is important to note that eating disorders are not diagnosed based on weight changes as much as behaviors, attitudes, and mindset. Symptoms may vary between males and females and in different age groups. Often, a young person with an eating disorder may not be aware that he/she has a problem or keeps the issues secret. Parents/guardians and family members are in a unique position to notice symptoms or behaviors that cause concern.

Noting behaviors common to people with eating disorders may lead to early referral to the primary care provider. It is important for eating disorders to be treated by someone who specializes in this type of care.

After reviewing the information, if you think your child may be showing signs of a possible eating disorder, please contact your primary health care provider, school nurse, or one of the resources listed below.

12. **Emergency Procedures**

BCPS Policy EB

Each school will develop a written school crisis, emergency management and medical emergency response plan as defined below. The School Board will annually review each school’s plan and will provide copies of such plans to the chief law-enforcement officer, the fire chief, the chief emergency medical services official, and the emergency management official of the locality.

The school administration will ensure that each school has:

1. written procedures to follow in emergencies such as fire, injury, illness, allergic reactions and violent or threatening behavior. The plan is outlined in the student handbook and discussed with staff and students during the first week of each school year;
2. space for the proper care of students who become ill;
3. a written procedure, for responding to violent, disruptive or illegal activities by students on school property or during a school sponsored activity; and
4. written procedures to follow for the safe evacuation of persons with special physical, medical, or language needs who may need assistance to exit a facility.

13. **Emergency School Closings**

Bath County Public Schools uses the School Messenger System in case of inclement weather and emergency closings. This system is dependent upon accurate telephone number and email information. If your telephone number or email changes for any reason, please notify the school office as soon as possible so that we can update that information on the School Messenger System. Also, announcements regarding school closings and delays will be made by 7:00 AM by area radio and television stations. The Superintendent will notify the following stations:

FM 107.1	WCHG, Hot Springs
TV Channel 7	WDBJ, Roanoke
TV Channel 10	WSLS, Roanoke

A link for school closing information is available on the division web page (<http://www.bath.k12.va.us>).

If weather reports indicate improving weather conditions that would allow school to open on a 1-hour or 2-hour delay, bus and school schedules will be adjusted accordingly.

Inclement weather routes will be observed during icy/unsafe road conditions. During inclement weather, buses will not run on specific routes. The inclement weather routes will be established annually and communicated to parents/guardians by letter, posted to the school website, printed in local newspapers, no later than October 15.

14. English Learners

BCPS Policy IGBF

The Bath County School Board provides programs to improve the education of English learners by assisting the children to learn English and meet Virginia's challenging academic content and student academic achievement standards.

The School Board annually assess the English proficiency of all English learners.

The School Board, not later than 30 days after the beginning of the school year, informs a parent or the parents of an English learner identified for participation in, or participating in, a program for English learners, of

- the reasons for the identification of their child as an English learner and in need of placement in a language instruction education program;
- the child's level of English proficiency, how that level was assessed, and the status of the child's academic achievement;
- the method of instruction used in the program in which their child is, or will be, participating, and the methods of instruction used in other available programs, including how such programs differ in content, instructional goals, and use of English and a native language in instruction;
- how the program in which their child is, or will be, participating will meet the educational strengths and needs of the child;
- how such program will specifically help their child learn English, and meet age appropriate academic achievement standards for grade promotion and graduation;
- the specific exit requirements for the program, the expected rate of transition from such program into classrooms that are not tailored for English learners, and the expected rate of graduation from high school (including four-year adjusted cohort graduation rates and extended-year adjusted cohort graduation rates for such program);
- in the case of a child with a disability, how such program meets the objectives of the individualized education program of the child; and
- information pertaining to parental rights that includes written guidance
 - detailing the right that parents have to have their child immediately removed from such program upon their request and the options that parents have to decline to enroll their child in such program or to choose another program or method of instruction, if available, and
 - assisting parents in selecting among various programs and methods of instruction, if more than one program or method is offered by the division.

For a child who has not been identified as an English learner prior to the beginning of the school year, but is identified as an English learner during the school year, the School Board provides the notice detailed above within 2 weeks of the child being placed in the program.

The information described above is provided to parents in an understandable and uniform format and, to the extent practicable, in a language that the parent can understand.

Each high school principal or principal's designee notifies each English learner of the availability of testing accommodations available for industry certifications, state licensure examinations, national occupational

competency assessments, the Armed Services Vocational Aptitude Battery and the Virginia workplace readiness skills assessment prior to the student's participation in any such certification, examination, assessment, or battery.

25. **Prosecution of Juveniles as Adults**

BCPS Policy JFCL

The following information has been developed by the Office of the Attorney General regarding the prosecution of juveniles as adults: Section 22.1-279.4 of the *Code of Virginia* states:

School boards shall provide information developed by the office of the Attorney General to students regarding laws governing the prosecution of juveniles as adults for the commission of certain crimes. Methods of providing such information may include, but not be limited to, public announcements in the schools, written notification to parents, publication in the student conduct manual, and inclusion in those materials distributed to parents pursuant to § 22.1-279.3.

The following information in question and answer format provides the notice required by this section of the *Code*.

Who is a juvenile? Section 16.1-228 of the *Code of Virginia* defines a juvenile as “a person less than 18 years of age.” Section 16.1-269.1 of the *Code* permits juveniles, 14 years of age or older at the time of an alleged offense, to be prosecuted as adults for specific crimes under certain circumstances. This process is called a transfer to the appropriate circuit court for trial as an adult.

How is the age of the juvenile calculated? Section 16.1-241 of the *Code of Virginia* provides that for the purpose of transferring a juvenile to circuit court for trial as an adult, the child must have been age 14 or older at the time of the offense.

Under what circumstances does the law permit the transfer of juveniles for trial as adults?

The *Code of Virginia* permits the transfer of juveniles for trial as adults under three specific circumstances. Following is a description of each circumstance and the procedure that is followed in order to determine whether the student is transferred to circuit court.

Circumstance #1

A transfer can occur when a juvenile, who is age 14 or older at the time of the offense, is charged with a crime which would be a felony if committed by an adult (§ 16.1-269.1 A. of the *Code of Virginia*). Offenses are either felonies or misdemeanors. Those offenses that are punishable by confinement in a state correctional facility or death are felonies; all other offenses are misdemeanors. Felonies are classified for the purposes of punishment and sentencing into six classes. The authorized punishments for conviction of a felony are as follows:

- Class 1 felony – death if the person convicted was 18 years of age or older at the time of the offense and is not determined to be mentally retarded and a fine of not more than \$100,000. If the person was under 18 years of age at the time of the offense or is determined to be mentally retarded, the punishment shall be imprisonment for life or imprisonment for life and a fine of not more than \$100,000.
- Class 2 felony – imprisonment for life or for any term not less than twenty years or imprisonment for life or for any term not less than twenty years and a fine of not more than \$100,000.
- Class 3 felony – a term of imprisonment of not less than five years nor more than twenty years or a term of imprisonment of not less than five years nor more than twenty years and a fine of not more than \$100,000.
- Class 4 felony – a term of imprisonment of not less than two years nor more than ten years or a term of imprisonment of not less than two years nor more than ten years and a fine of not more than \$100,000.
- Class 5 felony – a term of imprisonment of not less than one year nor more than ten years, or in the discretion of the jury or the court trying the case without a jury, confinement in jail for not more than twelve months and a fine of not more than \$2,500, either or both.
- Class 6 felony – a term of imprisonment of not less than one year nor more than five years, or in the discretion of the jury or the court trying the case without a jury, confinement in jail for not more than twelve months and a fine of not more than \$2,500, either or both.
(§§ 18.2-9 and 18.2-10 of the *Code of Virginia*)

In this circumstance, the Commonwealth's Attorney's office makes a formal request to the judge of the juvenile court for the juvenile to be transferred to the circuit court. The juvenile court holds a transfer hearing and may retain jurisdiction or transfer the juvenile to the appropriate circuit court for criminal proceedings. Any transfer to the circuit court is subject to the following conditions: (1) notice; (2) probable cause to believe that the juvenile committed the alleged delinquent act or a lesser included delinquent act; (3) the juvenile is competent to stand trial; and, (4) the juvenile is not a proper person to remain within the jurisdiction of the juvenile court.

The decision regarding whether the juvenile is not a proper person to remain within the jurisdiction of the juvenile court is based upon, but not limited to, the following factors:

- The juvenile's age.
- The seriousness and number of alleged offenses.
- Whether the juvenile can be retained in the juvenile justice system long enough for effective treatment and rehabilitation.
- The appropriateness and availability of the services and dispositional alternatives in both the criminal justice and juvenile justice systems needed by the juvenile.
- The record and previous history of the juvenile in the jurisdiction where the alleged crime occurred or in other jurisdictions.
- Whether the juvenile has escaped from a juvenile correctional entity in the past.
- The extent, if any, of the juvenile's degree of mental retardation or mental illness.
- The juvenile's school record and education.
- The juvenile's mental and emotional maturity.
- The juvenile's physical condition and maturity.

Circumstance #2

A transfer can occur when a juvenile 14 years of age or older is charged with an offense which would be a felony if committed by an adult. (§ 16.1-269.1 C of the *Code of Virginia*)

In this circumstance, transfer is requested at the discretion of the Commonwealth's Attorney. If the Commonwealth's Attorney wishes to transfer the juvenile for trial as an adult, the juvenile court holds a preliminary hearing to determine whether there is probable cause to believe the juvenile committed the alleged delinquent act. Upon a finding of probable cause, the juvenile is transferred for prosecution as an adult. (§16.1-269.1 C of the *Code of Virginia*)

Circumstance #3

A transfer occurs when a juvenile 14 years of age or older at the time of the alleged offense is charged with capital murder, first or second degree murder, lynching or aggravated malicious wounding. (§ 16.1-269.1 B of the *Code of Virginia*)

Transfer under this circumstance is automatic. Whenever a juvenile 14 years of age or older is charged with capital murder, first or second degree murder, lynching or aggravated malicious wounding, he or she must be tried as an adult. The juvenile court holds a preliminary hearing to determine whether there is probable cause to believe the juvenile committed the alleged delinquent act. Upon a finding of probable cause, the juvenile is transferred for prosecution as an adult. (§ 16.1-269.1 B of the *Code of Virginia*)

If a juvenile is transferred for prosecution as an adult on one offense, what happens if he or she has also been charged with other offenses? If any one charge is transferred, all other charges of delinquency arising out of the same act will be transferred. (§ 16.1-269.6 of the *Code of Virginia*)

Does the transfer impact subsequent alleged criminal offenses? Yes. Once a juvenile is convicted of a crime as an adult in circuit court, all subsequent alleged criminal offenses of whatever nature, will be treated as adult offenses and no transfer hearing will be required. (§ 16.1-269.6 of the *Code of Virginia*)

What happens when an adult is sentenced for a crime he or she committed as a juvenile? When the juvenile court sentences an adult who has committed, before attaining the age of 18, an offense which would be a crime if committed by an adult, the court may impose a penalty up to a maximum of 12 months in jail and/or a fine up to \$2,500. (§ 16.1-284 of the *Code of Virginia*)

What can happen if a juvenile is tried as an adult? There are significant differences between a juvenile being tried as a juvenile and a juvenile being tried in the circuit court as an adult. In the juvenile system, a juvenile is given added protections because of his or her youth. First, records pertaining to the charge and adjudication of delinquency are confidential and may not be available to the public unless the crime was a felony. Second, if the adjudication is for a misdemeanor, the juvenile court record is expunged when the juvenile reaches the age of majority and is considered an adult. Third, a juvenile who is adjudicated delinquent remains in the juvenile system where a judge has discretion in the determination of the punishment or consequences to be imposed. In the juvenile system, the emphasis is on treatment and education.

In contrast, if a juvenile is prosecuted as an adult the issues and information related to the charge and the conviction of a crime are part of the public record. Because the information becomes an adult criminal record, it is not expunged when the juvenile reaches the age of 18. Additionally, the judge does not have the same discretion in sentencing. The judge in circuit court must impose at least the mandatory minimum sentence that is prescribed in sentencing guidelines. The circuit court does have the discretionary power to commit the juvenile to the juvenile system even if prosecuted as an adult.

28. Sex Offender Registry

BCPS Policy KN

The Bath County school division recognizes the danger sex offenders pose to student safety. Therefore, to protect students while they travel to and from school, attend school or are at school-related activities, each school in the Bath County school division shall request electronic notification of the registration or reregistration of any sex offender in the same or contiguous zip codes as the school. Such requests and notifications shall be made according to the procedure established by the Virginia Department of State Police.

Anyone requesting registry information should refer to the State Police website.

FOOD SERVICES

Generally

Employees of the Bath County School Board do not require a student who cannot pay for a meal at school or who owe a school meal debt to do chores or other work to pay for such meals or wear a wristband or hand stamp.

The Bath County school division provides free and reduced price breakfasts, lunches and milk to students according to the terms of the National School Lunch Program, the National School Breakfast Program and the Special Milk Program.

Competitive foods, as defined herein, comply with state and federal requirements.

Free and Reduced Price Food Services

School officials determine student eligibility based on guidelines established by federal law. Eligible students are provided nutritionally acceptable meals and milk free or at a reduced cost if state and federal resources for school food programs are available. The superintendent or superintendent's designee establishes regulations or procedures as needed to implement this policy.

The criteria for determining a student's eligibility and the procedures for securing free and reduced price meals and milk is publicly announced at the beginning of each school year and provided to parents of all children in attendance at Bath County public schools.

If the School Board collects information to determine eligibility for participation in the National School Breakfast Program or the National School Lunch Program, it posts prominently on its website a web-based application for student participation in such program and provides a paper-based application.

Employees of the Bath County School Board do not physically segregate, overtly identify, or otherwise discriminate against any child eligible for free or reduced price meals.

Definitions

"Competitive food" means all food and beverages other than meals reimbursed under programs authorized by the National School Lunch Act and the Child Nutrition Act of 1966 available for sale to students on the school campus during the school day. Competitive foods meet the nutrient guidelines established by the Board of Education, including the guidelines for calories, fat, sugar and sodium.

"Fundraiser" means a school-sponsored activity where food or nonfood items are sold on the school campus during regular school hours by a school-sponsored organization to raise money for a school-related program or activity. One fundraiser is defined as one or more fundraising activities by one or more school-sponsored organizations that last one school day. If multiple school-sponsored organizations conduct fundraisers on the same day, the combined activities are counted as one

fundraiser. If a fundraising activity lasts more than one school day, each subsequent day's activity is considered as one fundraiser and counts toward the total number of permitted fundraisers.

"School campus" means all areas of the property under the jurisdiction of the school that are accessible to students during the school day.

"School day" means the period from the midnight before to 30 minutes after the end of the official school day.

School Sponsored Fundraisers

Each school may conduct ten (10) school-sponsored fundraisers per school year during which food that does not meet the nutrition guidelines for competitive foods may be available for sale to students. Fundraisers are not conducted during school meal service times.

Unpaid Meal Charges

Students who do not have money on account or in hand to cover the cost of a meal at the time of service may be permitted to charge the meal. Students may charge no more than \$25.00 to their accounts.

A student carrying a negative balance of \$25.00 or more is not permitted to charge any additional amounts. A student who is not permitted to charge any additional amounts is permitted to buy a meal if the student has cash on hand. Reasonable efforts are used to avoid calling attention to a student's inability to pay.

Notice of low or negative balances in a student's meal account are sent to parents and the school principal. Parents are expected to pay all meal charges in full by the last day of the school year.

If a parent regularly fails to provide meal money or send food to school with the student and the student does not qualify for free or reduced benefits, the child nutrition director will inform the principal, who will determine the next course of action, which may include notifying the department of social services of suspected child neglect and/or taking legal steps to recover the unpaid meal charges.

The superintendent or superintendent's designee ensures that federal child nutrition funds are not used to offset the cost of unpaid meals and that the child nutrition program is reimbursed for bad debt. In order to accomplish those goals, the following procedures are followed:

- At least one written notice is provided to a student and the student's parent or guardian prior to the student being denied reimbursable meals for exceeding the division's charge limit.
- If payment of the negative balance is not received within ten (10) working days of the maximum charge limit being reached, the debt will be turned over to the superintendent or superintendent's designee for collection. If the debt is not paid within five (5) days of notice being given, it is considered bad debt for the purposes of federal law concerning unpaid meal charges.

Recordkeeping

The Bath County School Board is responsible for maintaining records that document compliance with this policy. Those records include documentation used to assess the nutritional profile of food items and determine whether a food item is an allowable competitive food, such as recipes, nutrition labels and/or product specifications for the competitive food available for sale to students.

The School Board is also responsible for

- maintaining records documenting compliance with the competitive food nutrition standards for food available for sale in areas that are outside of the control of the school nutrition programs operations,
- ensuring any organization or school activity designated as responsible for food service at the various venues in the school, other than the school nutrition programs, maintains records documenting compliance with the competitive food nutrition standards,
- maintaining records each school year documenting the number of exempt fundraisers, if any, conducted at each school within the division, and
- designating an individual at the division or school level to monitor and ensure compliance with this policy in all areas that are outside the control of the school nutrition programs operation. The designee may not be school nutrition personnel.

B	86-93	Above Average
C	78-85	Average
D	70-77	Below Average
F	69 & below	Failing
I	Incomplete, work must be made up to receive a grade	
P	Progressing below grade level, may fail	

K-1 grading shall consist of:

Social/Emotional and Physical Development
“M” most of the time “W” Working on Skill
“R” Rarely
Intellectual Development
√ Achieved level of understanding
W Working on skill
(Blank) Skill has not been introduced

At the elementary level (grades 2-7), the following grading system will be used to report students’ progress in the areas of physical education, art, music, and band:

E – Excellent
S – Satisfactory
N – Needs Improvement
U – Unsatisfactory

Report cards will be issued four (4) times during the school year, at the end of each 9-week grading period and progress reports (for all students) will be sent home at the midpoint of each grading period. Parents or guardians shall sign report cards and progress reports, as requested, and return to the school.

Numerical grades will be used on college transcripts for those institutions that have no differentiating letter scales for unequal letter comparisons. Numerical grades will be used on all cumulative scholastic achievement records.

Each teacher will develop a grading system appropriate for his/her class that will be equivalent to the grading scale. Approximately 75% of each grading period will be based on homework, projects, quizzes, tests, class participation, etc. Approximately 25% will be determined by achievement on comprehensive chapter, unit or nine-week tests. Semester and final examinations will be given in all classes at the secondary level and where appropriate at the elementary level.

The semester grades for the report card will be calculated using the following formula: the average of two nine-week grades shall count 80% of the semester grade with the exam counting 20% (optional if an exam is administered at the elementary level).

The annual grade shall be the average of the two semester grades.

All graded work, homework, quizzes, tests, etc. for the elementary grades shall be sent home weekly for parental signature.

To earn a state diploma, each pupil shall meet all local and state requirements for graduation, including SOL testing requirements.

The principal, teacher, and guidance will review all student failures at the end of each grading period. This committee (principal, teacher, and guidance) may suggest differentiation in the classroom, remedial work, other alternatives for the student, or further referral to the Child Study Team. Any remedial or alternative program to which a pupil is referred by the Child Study Team shall require written parental permission. Copies of these contracts are to be approved by the principal.

PROMOTION/RETENTION

Pupils shall be promoted by achieving at least 70% of the grade level/subject curriculum. A pupil achieving less than 70% of the grade level/subject curriculum will be reviewed by the teacher, guidance, and principal for options.

While a student at grades 3, 5, & 8 will not be retained based exclusively on SOL tests, a student failing to meet a passing rate on the SOL test in reading/language or mathematics, will be assigned to a SOL remediation program which may include, but will not be limited to, summer school, after school tutoring or special remediation classes during the school day beyond the 5 ½ hour day.

This promotion/retention policy does not exclude students from membership in a grade, or participation in a course, in which SOL tests are to be administered.

In grades K-8, the SOL test results will be used as one of a set of multiple criteria when determining whether students are promoted or retained. Other criteria to be considered may include, but not limited to, the end-of-year grades, prior retentions, attendance.

At the high school level, SOL test results may be used as part of the requirements for applicable courses, such as pre-requisites for higher level classes, etc. The Bath County Public Schools will not use SOL test results to withhold awarding a standard unit of credit for a course solely because a student failed a related SOL test.

Placement without academic progress is discouraged and may be made only in the primary grades at the insistence of the parents after a review by the principal. Such pupils are to be designated as placed, rather than, promoted. Pupils placed by parents shall be reviewed by the Child Study Team quarterly. Parents will be invited to participate in the review. After being placed, failure of such pupils to achieve a 70% average will result in automatic retention the following year.

The Principal shall have the authority and responsibility to assign pupils to the appropriate classes and teachers.

The resolution of disagreements regarding the grading system or promotion - retention issues shall be followed through the Principal, the Superintendent, and finally to the School Board.

ENGLISH LEARNERS

Generally

The Bath County School Board provides programs to improve the education of English learners by assisting the children to learn English and meet Virginia's challenging academic content and student academic achievement standards.

The School Board accepts and provides programs for students for whom English is a second language who entered school in Virginia for the first time after reaching their 12th birthday, and who have not reached age 22 on or before August 1 of the school year. No tuition is charged such students, if state funding is provided for such programs.

Assessments

The School Board annually assesses the English proficiency of all English learners.

Notification of Programs for English Learners

The School Board, not later than 30 days after the beginning of the school year, informs a parent or the parents of an English learner identified for participation in, or participating in, a program for English learners, of

- the reasons for the identification of their child as an English learner and in need of placement in a language instruction education program;
- the child's level of English proficiency, how that level was assessed and the status of the child's academic achievement;
- the method of instruction used in the program in which their child is, or will be, participating, and the methods of instruction used in other available programs, including how such programs differ in content, instruction goals, and use of English and a native language in instruction;
- how the program in which their child is, or will be, participating will meet the educational strengths and needs of the child;
- how such program will specifically help their child learn English, and meet age appropriate academic achievement standards for grade promotion and graduation;
- the specific exit requirements for such program, the expected rate of transition from such program into classrooms that are not tailored for English learners, and the expected rate of graduation from high school (including four-year adjusted cohort graduation rates and extended-year adjusted cohort graduation rates for such program);
- in the case of a child with a disability, how such program meets the objectives of the individualized education program of the child; and
- information pertaining to parental rights that includes written guidance
 - detailing the right that parents have to have their child immediately removed from such program upon their request and the options that parents have to decline to enroll their child in such program or to choose another program or method of instruction, if available, and

- assisting parents in selecting among various programs and methods of instruction, if more than one program or method is offered by the school division.

For a child who has not been identified as an English learner prior to the beginning of the school year but is identified as an English learner during the school year, the School Board provides the notice detailed above within 2 weeks of the child being placed in the program.

The information described above is provided to parents in an understandable and uniform format and, to the extent practicable, in a language that the parent can understand.

Notification of Availability of Testing Accommodations

Each high school principal or principal's designee notifies each English learner of the availability of testing accommodations available for industry certifications, state licensure examinations, national occupational competency assessments, the Armed Services Vocational Aptitude Battery and the Virginia workplace readiness skills assessment prior to the student's participation in any such certification, examination, assessment, or battery.

THE VIRGINIA ASSESSMENT PROGRAM AND GRADUATION REQUIREMENTS

Generally

The Board of Education has established educational objectives known as the Standards of Learning (SOLs), which form the core of Virginia's educational program, and other education objectives, which together are designed to ensure the development of the skills that are necessary for success in school and in preparation for life in the years beyond.

The Bath County School Board has developed and implemented a program of instruction that is aligned to the Standards of Learning and that meets or exceeds the requirements of the Board of Education. It awards diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who meet the requirements prescribed by the Board of Education and meet such other requirements as are prescribed by the school board and approved by the Board of Education.

The Bath County School Board awards diplomas and certificates in accordance with state laws and regulations. The requirements for a student to earn a diploma and graduate from high school are those in effect when the student enters ninth grade for the first time.

Virginia Assessment Program

In kindergarten through eighth grade, where the administration of Virginia Assessment Program tests are required by the Board of Education, each student is expected to take the tests following instruction. Students who are accelerated take the test aligned with the highest grade level, following instruction in the content. No student takes more than one test in any content area in each year, except in the case of expedited retakes as provided for in 8 VAC 20-131-30. Schools use the test results in kindergarten through eighth grade as part of a set of multiple criteria for determining the promotion or retention of students.

Each student in middle and secondary school takes all applicable end-of-course SOL tests following course instruction. The superintendent certifies to the Department of Education that the division's policy for dropping courses ensures that students' course schedules are not changed to avoid end-of-course SOL tests. Students who achieve a passing score on an end-of-course SOL test will be awarded a verified unit of credit in that course in accordance with 8 VAC 20-131-110. Students may earn verified credits in any courses for which end-of-course SOL tests are available. Students are not required to take an end-of-course SOL test in an academic subject after they have earned the number of verified credits required for that academic content area for graduation unless such test is necessary in order for the school to meet federal accountability requirements. Middle and secondary schools may consider the student's end-of-course SOL test score in determining the student's final course grade.

Participation in the Virginia Assessment Program by students with disabilities is prescribed by provisions of their Individualized Education Program (IEP) or 504 Plan. All students with disabilities are assessed with appropriate accommodations and alternate assessments where necessary.

Any student identified as an English Learner (EL) participates in the Virginia Assessment Program. A school-based committee convenes and makes determinations regarding the participation level of EL students in the Virginia Assessment Program. In kindergarten through eighth grade, EL students may be granted a one-time exemption from SOL testing in the areas of writing, and history and social science.

Definitions

Authentic Performance Assessment

An “Authentic Performance Assessment” is a test that complies with guidelines adopted by the Board of Education that requires students to perform a task or create a product that is typically scored using a rubric.

Standard Unit of Credit

A “standard unit of credit” or “standard credit” is a credit awarded for a course in which the student successfully completes 140 clock hours of instruction and the requirements of the course. A standard unit of credit may be awarded based on a waiver of the 140 clock hour requirement as provided in Policy IKFD Alternative Paths to Attaining Standard Units of Credit.

Verified Unit of Credit

A “verified unit of credit” or “verified credit” is a credit awarded for a course in which a student earns a standard unit of credit and completes one of the following:

1. Achieves a passing score on a corresponding end-of-course SOL test.
2. Achieves a passing score on an additional test, as defined in 8 VAC 20-1315, as a part of the Virginia Assessment Program.
3. Meets the criteria for the receipt of a locally awarded verified credit when the student has not passed a corresponding SOL test.
4. Meets the criteria for the receipt of a verified credit in history and social science by demonstrating mastery of the content of the associated course on an authentic performance assessment that complies with guidelines adopted by the Board of Education.
5. Meets the criteria for the receipt of a verified credit for English (writing) by demonstrating mastery of the content of the associated course on an authentic performance assessment that complies with guidelines adopted by the Board of Education.

Students may also earn verified credits by taking alternative tests to the SOL assessment. Such tests may only be those approved by the Virginia Board of Education, and the student may earn verified credits only by achieving that score established by the Board of Education.

Virginia Assessment Program

The “Virginia Assessment Program” is a system used to evaluate student achievement that includes SOL tests and additional tests that may be approved from time to time by the Board of Education.

STUDENT ABSENCES/EXCUSES/DISMISSALS

I. Student Attendance Policy

Student attendance is a cooperative effort and the School Board involves parents and students in accepting the responsibility for good attendance.

Each parent/guardian or person having control or charge of a child within the compulsory attendance age is responsible for such child's regular and punctual attendance at school as required under provisions of the law.

Parents of students who are absent must inform the school of the reason for the absence no later than upon the student's return to school. Absences are excused for the following reasons:

1. Medical/dental appointments or personal illness (medical documentation required)
2. Illness, death or funeral in the family or household (verification may be required)
3. Students sent home by the school nurse
4. Recognized religious holidays
5. Lawyer/court official meeting (court documentation required)
6. School-sponsored activities
7. Pre-arranged absences with prior approval of the building administrator
8. State mandated testing or other school/division testing programs
9. School-sponsored field trips or activities, including all VHSL activities
10. Late bus or buses which fail to run
11. Conference with school counselor, administrator, or other related staff members
12. Involuntary court appearance (copy of court order or subpoena required)

The superintendent, by regulation, establishes procedures for appropriate interventions when a student engages in a pattern of absences for less than a full day, the explanation of which, if it were a full-day absence, would not be an excused absence.

The superintendent's regulations include procedures for excusing students who are absent by reason of observance of a religious holiday. Such regulations ensure that a student is not deprived of any award or of eligibility or opportunity to compete for any award, or of the right to take an alternate test or examination, which the student missed by reason of such absence, if the absence is verified in an acceptable manner.

Students shall attend school for a full day unless excused by the principal or principal's designee.

High school students may spend a maximum of ten (10) school days each academic year participating in High School to Work Partnerships established pursuant to guidelines developed by the Board of Education. Students who miss a partial or full day of school while participating in Partnership programs are not counted as absent for the purposes of calculating average daily membership. The superintendent's regulations include procedures by which students may make up work missed while participating in a High School to Work Partnership.

Nothing in this policy shall be construed to limit in any way the authority of any attendance officer or the division superintendent to seek immediate compliance with the compulsory school attendance law.

II. Compulsory Attendance Procedures

Whenever a student fails to report to school on a regularly scheduled school day and no information has been received by school personnel that the student's parent is aware of and supports the absence, the school principal, principal's designee, attendance officer or other school personnel or volunteer notifies the parent by phone, email or other electronic means to obtain an explanation. School staff records the student's absence for each day as "excused" or "unexcused". Early intervention with the student and parent or parents takes place for repeated unexcused absences.

A. Upon Fifth Absence Without Parental Awareness and Support

If (1) a pupil fails to report to school for a total of five scheduled school days for the school year, and (2) there is no indication that the pupil's parent is aware of and supports the absence; and (3) reasonable efforts to notify the parent of the absences have failed, then the principal or principal's designee shall make a reasonable effort to ensure that direct contact is made with the parent in person, through telephone conversation, or through the use of other communication devices to obtain an explanation for the pupil's absence and to explain to the parent the consequences of continued nonattendance. The school principal or principal's designee, the pupil, and the pupil's parent shall jointly develop a plan to resolve the pupil's nonattendance. Such plan shall include documentation of the reasons for the pupil's nonattendance.

B. Upon Additional Absences Without Parental Awareness and Support

If the pupil is absent for more than one additional day after direct contact with the pupil's parent and school personnel have received no indication that the pupil's parent is aware of and supports the pupil's absence, the school principal or principal's designee shall schedule a conference with the pupil, the pupil's parent and school personnel. Such conference may include the attendance officer and other community service providers to resolve issues related to the pupil's nonattendance. The conference shall be held no later than 10 school days after the tenth absence of the pupil, regardless of whether his parent approves of the conference. The conference team shall monitor the pupil's attendance and may meet again as necessary to address concerns and plan additional interventions if attendance does not improve. In circumstances in which the parent is intentionally noncompliant with compulsory attendance requirements or the pupil is resisting parental efforts to comply with compulsory attendance requirements, the principal or principal's designee shall make a referral to the attendance officer. The attendance officer shall schedule a conference with the pupil and pupil's parent within 10 school days and may (i) file a complaint with the juvenile and domestic relations district court alleging the pupil is a child in need of supervision as defined in Va. Code § 16.1-228 or (ii) institute proceedings against the parent pursuant to Va. Code § 18.2-371 or § 22.1-262. In filing a complaint against the student, the attendance officer shall provide written documentation of the efforts to comply with the provisions of this policy. In the event that both parents have been awarded joint physical custody pursuant to Va. Code § 20-124.2 and the school has received notice of such order, both parents shall be notified at the last known addresses of the parents.

III. Report for Suspension of Driver's License

In addition to any other actions taken pursuant to this policy, if a student who is under 18 years of age has 10 or more unexcused absences from school on consecutive school days, the principal may notify the juvenile and domestic relations court, which may take action to suspend the student's driver's license.

IV. Attendance Reporting

Student attendance is monitored and reported as required by state law and regulations. At the end of each school year, each public school principal reports to the superintendent the number of pupils by grade level for whom a conference was scheduled pursuant to Part II (B) above. The superintendent compiles this information and provides it annually to the Superintendent of Public Instruction.

V. Dismissal Precautions

Principals do not release a student during the school day to any person not authorized by the student's parent/guardian to assume responsibility for the pupil. Students are released only on request and authorization of parent or guardian. The superintendent establishes procedures for release of pupils who are not residing with or under the supervision of a parent/guardian. The burden of proof on the authority of the person to receive the student is on the requesting party. A formal check-out system is maintained in each school.

SCHOOL ATTENDANCE REGULATIONS

Regular school attendance is necessary for students to receive the full benefit of public education. In addition, state compulsory attendance laws mandate school attendance until age eighteen. As such, all parents and students must accept responsibility for regular student attendance in school.

When a student is absent from school, parents or guardians should contact the school to report the student's absence by 10:00 am. If no contact is made, then upon the student's return to school, the parent or guardian must send a written note stating the reason for the student's absence. Parents or guardians will be notified whenever a student does not attend school and the school is not aware of the reason for the absence.

Absences are excused for the following reasons:

1. Medical/dental appointments or personal illness (medical documentation required)
2. Illness, death, or funeral in the family or household (verification may be required)
3. Students sent home by the school nurse
4. Recognized religious holidays
5. Lawyer/court official meeting (court documentation required)
6. Pre-arranged absences with prior approval of the building administrator
7. State mandated testing or other school/division testing programs
8. School-sponsored field trips or activities, including all VHSL activities
9. Late bus or buses which fail to run
10. Conference with school counselor, administrator, or other related staff members
11. Involuntary court appearance (copy of court order or subpoena required)

Attendance letters will be sent home to parents or guardians notifying them when a student has been absent a total of five and ten days during a school year. Upon accumulation of fifteen days of school absences, the principal will send a summary of absences and reasons given for the absences to the superintendent. Juvenile court officials will be notified of excessive student absences; court intervention will be sought after other strategies have proven ineffective.

A daily record will be maintained for absences, tardies and early dismissals, noting the time and reason given by the parent/guardian. Parents or guardians will be notified in writing when absences reach five (5), ten (10) and fifteen (15) days and when tardies and early dismissals become excessive.

Whenever a student fails to report to school on a regularly scheduled school day and no information has been received by school personnel that the student's parent is aware of and supports the absence, the school principal, principal's designee, attendance officer or other school personnel or volunteer notifies the parent by phone, email or other electronic means to obtain an explanation. School staff records the student's absence for each day as "excused" or "unexcused". Early intervention with the student and parent or parents takes place for repeated unexcused absences.

A. Upon Fifth Absence Without Parental Awareness and Support

If (1) a student fails to report to school for a total of five scheduled school days for the school year, and (2) there is no indication that the student's parent is aware of and supports the absence; and (3) reasonable efforts to notify the parent of the absences have failed, then the principal or his designee or the attendance officer shall make a reasonable effort to ensure that direct contact is made with the parent, either in person or through telephone conversation, to obtain an explanation for the pupil's absence and to explain to the parent the consequences of continued nonattendance. The school principal, principal's designee or the attendance officer, the pupil, and the pupil's parent shall jointly develop a plan to resolve the pupil's nonattendance. Such plan shall include documentation of the reasons for the pupil's nonattendance.

B. Upon Additional Absence Without Parental Awareness and Support

If the pupil is absent for more than one additional day after direct contact with the pupil's parent and school personnel have received no indication that the pupil's parent is aware of and supports the pupil's absence, the school principal or principal's designee shall schedule a conference with the pupil, the pupil's parent and school personnel. Such conference may include the attendance officer and other community service providers to resolve issues related to the pupil's nonattendance. The conference shall be held no later than ten (10) school days after the tenth absence of the pupil, regardless of whether his parent approves of the conference. The conference team shall monitor the pupil's attendance and may meet again as necessary to address concerns and plan additional interventions if attendance does not improve. In circumstances where the parent is intentionally noncompliant with compulsory attendance requirements or the pupil is resisting parental efforts to comply with compulsory attendance requirements, the principal or principal's designee shall make a referral to the attendance officer. The attendance officer shall schedule a conference with the pupil and the pupil's parent within ten (10) school days and may (i) file a complaint with the juvenile and domestic relations district court alleging the pupil is a child in need of supervision as defined by Va. Code §16.1-228 or (ii) institute proceedings against the parent pursuant to Va. Code §18.2-371 or §22.1-262. In filing a complaint against the student, the attendance officer shall provide written documentation of the efforts to comply with the provisions of policy JED. In the event that both parents have been awarded joint physical custody pursuant to Va. Code §20-124.2 and the school has received notice of such order, both parents shall be notified at the last known address of the parents.

Makeup work for absences will be due three days after the student returns to school (Example: If a student is absent on Monday, and returns on Tuesday, then makeup work is due on Friday). For absences of more than one day, students will be given an extra day (up to a maximum of five days) to complete makeup work for each additional day of absence. Grades for work turned in after that time will be reduced ten points for each day beyond the 'grace period.' The building administrator may make exceptions for extenuating circumstances (Example: hospitalization).

The following is used to define perfect and outstanding attendance.

Perfect Attendance*

Attending school all day constitutes perfect attendance. This includes no absences, no tardies, and no daily early departures during the school year.

Outstanding Attendance*

Students that miss three or less days during the school year have outstanding attendance. This may include full days missed and/or tardies or early departures.

STUDENT CONDUCT

The standards of student conduct are designed to define the basic rules and major expectations of students in the public schools of Bath County. It is the responsibility of the Bath County School Board to adopt policy and regulations and the administration to issue regulations establishing rules of conduct for student behavior in order to protect the health, safety and welfare of its students. The local school principal has the responsibility and authority to exercise reasonable judgment in enforcing this Code of Conduct. Principals are responsible for ensuring that all students, staff members and parents are provided the opportunity to become familiar with this policy.

The superintendent issues Standards of Student Conduct and a list of possible corrective actions for violation of the Standards of Conduct. Each parent of a student enrolled in a public school has a duty to assist the school in enforcing the standards of student conduct and compulsory school attendance in order that education may be conducted in an atmosphere free of disruption and threat to persons or property and supportive of individual rights. The Standards of Student Conduct, a notice of the requirements of Va. Code § 22.1-279.3, and a copy of the compulsory school attendance law is also sent to all parents within one calendar month of the opening of schools simultaneously with any other materials customarily distributed at that time. A statement for the parent's signature acknowledging the receipt of the Standards of Student Conduct, the requirements of Va. Code § 22.1-279.3 and the compulsory school attendance law is also sent. Parents are notified that by signing the statement of receipt, they are not deemed to waive, but expressly reserve, their rights protected by the constitution or laws of the United States or Virginia. Each school maintains records of the signed statements.

The school principal may request the student's parent or parents, if both have legal and physical custody, to meet with the principal or principal's designee to review the School Board's Standards of Student Conduct and the parent's or parents' responsibility to participate with the school in disciplining the student and maintaining order, to ensure the student's compliance with compulsory school attendance law and to discuss improvement of the child's behavior, school attendance and educational progress. The administrator of the building should exercise reasonable judgment and consider the circumstances in determining the disciplinary action to be administered.

Each student has the right to expect an educational environment in which he or she can strive to achieve his or her intellectual potential. The student is expected to attend school regularly, be diligent in his/her studies and conduct him/herself in such a way that the rights and privileges of others are not violated. The student is expected to accept and demonstrate the obligation of good citizenship to help prevent problems from happening and help solve problems if they occur.

All parents are expected to assume responsibility for the student's behavior and assist the school in enforcing the Standards of Student Conduct and compulsory school attendance. Parents are also expected to maintain regular communication with school authorities, monitor and require daily attendance, and bring to the attention of the school authorities any problem that affects the student or other children in the school. It is the parents' responsibility to notify the school of any unusual behavior pattern or medical problem that might lead to serious difficulties.

The school principal may notify the parents of any student who violates a School Board policy or the compulsory school attendance requirements when such violation could result in the student's suspension or the filing of a court petition, whether or not the school administration has imposed such disciplinary action or filed

such a petition. The notice shall state (1) the date and particulars of the violation; (2) the obligation of the parent to take actions to assist the school in improving the student's behavior and ensuring compliance with compulsory school attendance; (3) that, if the student is suspended, the parent may be required to accompany the student to meet with school officials; and (4) that a petition with the juvenile and domestic relations court may be filed under certain circumstances to declare the student a child in need of supervision.

The principal or principal's designee notifies the parent of any student involved in an incident required to be reported to the superintendent and Virginia Board of Education.

No suspended student shall be admitted to the regular school program until such student and his parent have met with school officials to discuss improvement of the student's behavior, unless the school principal or his designee determines that readmission, without parent conference, is appropriate for the student.

If a parent fails to comply with the requirements of this policy, the School Board may ask the Juvenile and Domestic Relations Court to proceed against the parent in accordance with the requirements of the Code of Virginia.

Students are subject to corrective action for any misconduct that occurs:

- in school or on school property;
- on a school vehicle;
- while participating in or attending any school sponsored activity or trip;
- on the way to and from school; and
- off school property, when the acts lead to: (1) notification pursuant to Va. Code § 16.1-305.1 or a conviction for an offense listed in Va. Code § 16.1-260, (2) a charge that would be a felony if committed by an adult, or (3) disruption of the learning environment.

Unlawful acts which will lead to police notification and may lead to suspension from classes, exclusion from activities or expulsion include but are not limited to:

- possession or use of alcohol, illegal drugs, including marijuana and anabolic steroids, or drug paraphernalia;
- selling drugs;
- assault/battery;
- sexual assault;
- arson;
- intentional injury (bullying, fighting);
- theft;
- bomb threats, including false threats, against school personnel or school property;
- use or possession of explosives (see Policy JFCD Weapons in School);
- possession of weapons or firearms (see Policy JFCD Weapons in School);
- extortion, blackmail or coercion;
- driving without a license on school property;
- homicide;
- burglary;

- sex offenses (indecent exposure, obscene phone calls, sodomy and child molestation);
- malicious mischief;
- shooting;
- any illegal conduct involving firebombs, explosive or incendiary devices or materials, hoax explosive devices or chemical bombs;
- stabbing, cutting or wounding;
- unlawful interference with school authorities including threats;
- unlawful intimidation of school authorities; and
- other unlawful acts including being an accessory to any of these or other unlawful acts.

Any student involved in a reportable drug or violent incident shall participate in prevention and intervention activities deemed appropriate by the superintendent or superintendent's designee. Further, any student who has been found to be in possession of or under the influence of drugs or alcohol on school property or at a school sponsored activity may be required to (1) undergo evaluation for drug or alcohol abuse and (2) participate in a drug and/or alcohol treatment program if recommended by the evaluator and if the parent consents.

The superintendent issues regulations listing additional actions which may be cause for corrective action and if serious enough or exhibited repeatedly may lead to suspension or expulsion.

The School Board biennially reviews the model student conduct code developed by the Board of Education to incorporate into policy a range of discipline options and alternatives to preserve a safe and non-disruptive environment for effective learning and teaching.

STANDARDS OF STUDENT CONDUCT

The following are standards of student conduct established by the School Board for all students. The consequences of any act are determined on the basis of the facts presented in each situation in the reasonable discretion of the Board, its designated committees and other appropriate school officials.

1. Assault and Battery

A student shall not assault or commit battery upon another person on school property, on school buses or during school activities on or off school property.

An assault is a threat of bodily injury.

A battery is any bodily hurt, however slight, done to another in an angry, rude or vengeful manner.

2. Attendance; Truancy

Students shall attend school on a regular and punctual basis unless otherwise excused in accordance with School Board policy or regulation. (See Policy JED Student Absences/Excuses/Dismissals.)

If a student who is under 18 years of age has 10 or more unexcused absences from school on consecutive school days, the principal may notify the juvenile and domestic relations court, which may take action to suspend the student's driver's license.

3. Bomb Threats

Students shall not engage in any illegal conduct involving firebombs, explosive or incendiary materials or devices or hoax explosive devices or chemical bombs as defined in the Code of Virginia. Moreover, students shall not make any threats or false threats to bomb school personnel or school property.

4. Bullying

A student, either individually or as a part of a group, shall not bully others either in person or by the use of any communication technology including computer systems, telephones, pagers, or instant messaging systems. Prohibited conduct includes, but is not limited to, physical, verbal, or written intimidation, taunting, name-calling, and insults and any combination of prohibited activities.

Such permission shall include the name of the medication, the required dosage of the medication, and the time the medicine is to be given. Such medicine must be in the original container and delivered to the principal, school nurse, or school division designee by the parent or guardian of the student.

Self-Care and Self-Administration of Medication

Each enrolled student who is diagnosed with diabetes, with parental consent and written approval from the prescriber, is permitted to

- carry with him and use supplies, including a reasonable and appropriate short-term supply of carbohydrates, an insulin pump, and equipment for immediate treatment of high and low blood glucose levels, and

- An individualized health care plan is prepared, including emergency procedures for any life-threatening conditions.
- There is a consultation with the student's parent before any limitations or restrictions are imposed on a student's possession and self-administration of inhaled asthma medications and auto-injectable epinephrine, and before the permission to possess and self-administer inhaled asthma medications and auto-injectable epinephrine at any point during the school year is revoked.
- Self-administration of inhaled asthma medications and auto-injectable epinephrine is consistent with the purposes of the Virginia School Health Guidelines and the Guidelines for Specialized Health Care Procedure Manual, which are jointly issued by the Virginia Department of Education and the Virginia Department of Health.

ADMINISTERING MEDICATIONS TO STUDENTS

The administration of medication during school hours is discouraged. Medication should be given at times other than school hours. (Example: medication given three times a day may be given before school, after school, and at bedtime.) Recognizing that this is not always possible, guidelines have been established for administration of prescribed medication during the school day. School employees do not make medical diagnosis or prescribe any medication. A non-medically trained person will give medication. It is our intent to ensure that students have the opportunity to attend class while requiring medication not in violation of our substance abuse policy.

Medication Form (Required)

Any student under medical care and using prescribed medication during school hours is required to present to the school principal or principal's designee a doctor's/nurse practitioner's instructions stating the name of medication prescribed for the student, the time to be administered, the dosage of medication, and the total duration of treatment, as well as doctor's/nurse practitioner's signature. Administration of medication at school also requires the written signature of the parent/guardian. (Form BSBO #044) Medication cannot be given without this form.

Procedures

EXCEPTIONS TO THE FOLLOWING GUIDELINES MAY BE NECESSARY DEPENDING UPON INDIVIDUAL CIRCUMSTANCES. EXCEPTIONS MAY BE AUTHORIZED ONLY BY THE SCHOOL PRINCIPAL OR DIVISION SUPERINTENDENT.

- 1) The school nurse, principal, or principal's designee shall administer all student medications. All staff having the responsibility for administering medications shall participate annually in appropriate staff development provided by medically trained personnel.
- 2) For the safety and protection of children, the medication must be brought to school by a parent/guardian or an adult, with the parent/guardian's written authority to act, in the original container which is appropriately labeled by the pharmacy or physician/nurse practitioner. Medication may not be transported on a school bus by any student due to the potential danger of improper use and handling.
- 3) All prescribed medication shall be secured in a locked storage area in its original container or in an appropriately labeled pharmacy container. Possession of medication by a student is a violation of the Substance Abuse Policy.
- 4) No medication may be dispensed from a bottle or container, which is improperly labeled.
- 5) If there is any discrepancy between the label on the bottle/container and the parent's instructions, the medication may not be administered to the student.
- 6) A School Medication record shall be maintained in each school to record medication given to a student, the date, the dosage, and by whom administered. (BSBO #044a)
- 7) Medication shall be consumed in the presence of the adult administering the medication.
- 8) Medication may be taken on field trips. The teacher sponsoring the field trip shall be responsible for making appropriate arrangements for transporting and administering such medications. The teacher shall also be responsible for signing the School Medication Record (BSBO #044a).
- 9) Staff having responsibility for administering medications shall have no other responsibilities during the time that medications are being administered.

- 10) The school will contact the parent at the close of the school year and request the parent to pick up unused medication.
- 11) If medications are not picked up within ten (10) days of schools year-end closing, they will be disposed of by the school nurse.

CHRONIC MEDICATIONS
(LONG-TERM MEDICATIONS PRESCRIBED BY PHYSICIAN)

These are medications which must be available for administration, to the student, during the school year (i.e. medication for ADD/ADHD, allergies, asthma, seizures, diabetic medication, etc.).

ACUTE MEDICATIONS
(SHORT-TERM MEDICATIONS PRESCRIBED BY A PHYSICIAN/NURSE PRACTITIONER)

These are medications which must be available during school hours (i.e. antibiotics, antihistamines, prescription eye drops, etc.).

- 1) A request must be made by the physician/nurse practitioner, on BSBO Form #044 that the medication is necessary during school hours.
- 2) Only the number of doses to be given during school hours is to be sent to school. When the student is administered medication both at school and at home, the parent is encouraged to request the pharmacist to divide the medication into two containers (one for home – one for school).

OVER-THE-COUNTER MEDICATIONS
(SHORT-TERM MEDICATIONS)

These are medications purchased at a drug or grocery store and are available for administration to the student (i.e. cold syrups, cold remedies, pain relievers, etc.).

- 1) All over-the-counter medication MUST be brought to the office with a note from parents and/or a physician/nurse practitioner stating: Student's name, name of drug, time to be administered, dosage, signed and dated by parent. STUDENT RECORDS

Generally

The Bath County School Board maintains accurate and complete records for every student enrolled in the public schools in accordance with all federal and state laws.

The superintendent and/or his designee(s) is responsible for the collection of data, record maintenance and security, access to, and use of records, confidentiality of personally identifiable information, dissemination of information from records, and destruction of records, including the destruction of personally identifiable information regarding a student with a disability at the request of the parents. The superintendent also provides for notification of all school division personnel of policy and procedures for management of education records and notification of parents and students of their rights regarding student records, including the right to obtain, upon request, a copy of this policy.

Definitions

For the purposes of this policy, the Bath County Public Schools uses the following definitions.

Authorized representative – any entity or individual designated by a state or local educational authority or an agency headed by an official listed in 34 CFR § 99.31(a)(3) to conduct, with respect to federal- or state-supported education programs, any audit or evaluation, or any compliance or enforcement activity in connection with federal legal requirements that relate to these programs.

Directory information - information contained in a student's education record that would not generally be considered harmful or an invasion of privacy if disclosed. Directory information may include information such as the student's name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, grade level, enrollment status, dates of attendance, participation in officially recognized activities and sports, weight and height of members of athletic teams, degrees, honors, and awards received, and the most recent educational institution attended. Directory information may not include the student's social security number. Directory information may include a student identification number or other unique personal identifier used by a student for accessing or communicating in electronic systems if the identifier cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a personal identification number, password, or other factor known or possessed only by the authorized user or a student ID number or other unique personal identifier that is displayed on a student ID badge, if the identifier cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity such as a PIN or password or other factor known or possessed only by the authorized user.

Early childhood education program – a Head Start program or an Early Head Start program, a state licensed or regulated child care program, or a program that serves children from birth through age six that addresses the children's cognitive, social, emotional, and physical development and is a state prekindergarten program, a program under section 619 or Part C of the Individuals with Disabilities Education Act, or a program operated by a local educational agency.

Education program - any program that is principally engaged in the provision of education, including, but not limited to, early childhood education, elementary and secondary education, postsecondary education, special education, job training, career and technical education, and adult education, and any program that is administered by an educational agency or institution.

Education records - any information recorded in any way including handwriting, print, computer media, video or audiotape, film, microfilm, and microfiche maintained by the Bath County School Board or an agent of the school division which contains information directly related to a student, except

- records that are kept in the sole possession of the maker, are used only as a personal memory aid, and are not accessible or revealed to another person except a temporary substitute for the maker of the record;
- records created and maintained for law enforcement purposes by the Bath County School Board's law enforcement unit, if any. A law enforcement unit is any individual, office, department, or division of the school division that is authorized to enforce any local, state, or federal law, refer enforcement matters to appropriate authorities or maintain the physical security and safety of the school division;
- in the case of persons who are employed by the Bath County School Board but who are not in attendance at a school in the division, records made and maintained in the normal course of business which relate exclusively to the person in his capacity as an employee;
- records created or received after an individual is no longer in attendance and that are not directly related to the individual's attendance as a student;
- grades on peer-graded papers before they are collected and recorded by a teacher; and
- any electronic information, such as email, even if it contains personally identifiable information regarding a student, unless a printed copy of the electronic information is placed in the student's file or is stored electronically under an individual student's name on a permanent and secure basis for the purpose of being maintained as an educational record. For purposes of this policy, electronic information that exists on a back-up server, a temporary archiving system, or on a temporary basis on a computer is not an education record and is not considered as being maintained.

Eligible student - a student who has reached age 18.

Parent - a parent of a student, including a natural parent, a guardian, or an individual acting as a parent in the absence of a parent or guardian.

Student - any person who is or has been in attendance at Bath County Public Schools regarding whom the school division maintains education records or personally identifiable information.

Dissemination and Maintenance of Records About Court Proceedings

Adjudications

The superintendent shall disseminate the notice or information regarding an adjudication of delinquency or conviction for an offense listed in Va. Code § 16.1-260.G. contained in a notice received pursuant to Va. Code § 16.1-305.1 to school personnel responsible for the management of student records and to other relevant school personnel, including, but not limited to, the principal of the school in which the student is enrolled. The principal shall further disseminate such information to licensed instructional personnel and other school personnel who (1) provide direct educational and support services to the student and (2) have a legitimate educational interest in such information.

A parent, guardian, or other person having control or charge of a student, and, with consent of a parent or in compliance with a court order, the court in which the disposition was rendered, shall be notified in writing of any disciplinary action taken with regard to any incident upon which the adjudication of delinquency or conviction for an offense listed in subsection G of Va. Code § 16.1-260 was based and the reasons therefor. The parent or guardian shall also be notified of his or her right to review, and to request an amendment of, the student's scholastic record.

Every notice of adjudication of delinquency or conviction for an offense listed in subsection G of Va. Code § 16.1-260 received by a superintendent, and information contained in the notice, which is not a disciplinary record as defined in Board of Education regulations, shall be maintained by him and by any others to whom he disseminates it, separately from all other records concerning the student. However, if the school administrators or the School Board takes disciplinary action against a student based upon an incident which formed the basis for the adjudication of delinquency or conviction for an offense listed in subsection G of Va. Code § 16.1260, the notice shall become a part of the student's disciplinary record.

Any notice of disposition received pursuant to Va. Code § 16.1-305.1 shall not be retained after the student has been awarded a diploma or a certificate as provided in Va. Code § 22.1253.13:4.

Petitions and Reports

The superintendent shall not disclose information contained in or derived from a notice of petition received pursuant to Va. Code § 16.1-260 or report received pursuant to Va. Code § 6625.2:1 except as follows:

- If the juvenile is not enrolled as a student in a public school in the division to which the notice or report was given, the superintendent shall promptly so notify the intake officer of the juvenile court in which the petition was filed or the Director of the Department which sent the report and may forward the notice of petition or report to the superintendent of the division in which the juvenile is enrolled, if known.

- Prior to receipt of the notice of disposition in accordance with Va. Code § 16.1305.1 the superintendent may disclose the fact of the filing of the petition and the nature of the offense to the principal of the school in which the student is enrolled if the superintendent believes that disclosure to school personnel is necessary to ensure the physical safety of the student, other students, or school personnel within the division. The principal may further disseminate the information regarding a petition, after the student has been taken into custody, whether or not the child has been released, only to those students and school personnel having direct contact with the student and need of the information to ensure physical safety or the appropriate educational placement or other educational services.
- If the superintendent believes that disclosure of information regarding a report received pursuant to Va. Code § 66-25.2:1 to school personnel is necessary to ensure the physical safety of the student, other students, or school personnel, he may disclose the information to the principal of the school in which the student is enrolled. The principal may further disseminate the information regarding such report only to school personnel as necessary to protect the student, the subject or subjects of the danger, other students, or school personnel.

Protective Orders and Orders Prohibiting Contact with a Child

Any school principal who receives notice that a circuit court, general district court, juvenile and domestic relations district court, or magistrate has issued a protective order for the protection of any child who is enrolled at the school, or any other order prohibiting contact with such a child, notifies licensed instructional personnel and other school personnel who (i) provide direct educational or support services to the protected child or the child subject to the order, (ii) have a legitimate educational interest in such information, and (iii) are responsible for the direct supervision of the protected child or the child subject to the order that such order has been issued.

Annual Notification

The school division annually notifies parents and eligible students of their rights under the Family Educational Rights and Privacy Act (FERPA) including

- the right to inspect and review the student's education records and the procedure for exercising this right;
- the right to request amendment of the student's education records that the parent believes to be inaccurate, misleading or in violation of the student's privacy rights and the procedure for exercising this right;
- the right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent;
- the type of information designated as directory information and the right to opt out of release of directory information;
- that the school division releases records to other institutions that have requested the records and in which the student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer;
- the right to opt out of the release of the student's name, address, and phone number to military recruiters or institutions of higher education that request such information;

- a specification of the criteria for determining who constitutes a school official and what constitutes a legitimate educational interest; and
- the right to file complaints with the Family Policy Compliance Office in the United States Department of Education concerning the school division's alleged failure to comply with FERPA.

Procedure to Inspect Education Records

Parents of students or eligible students may inspect and review the student's education records within a reasonable period of time, which shall not exceed 45 days, and before any meeting regarding an IEP or hearing involving a student with a disability. Further, parents have the right to a response from the school division to reasonable requests for explanations and interpretations of the education record.

Parents or eligible students should submit to the student's school principal a written request which identifies as precisely as possible the record or records he or she wishes to inspect.

The principal (or appropriate school official) will make the needed arrangements for access as promptly as possible and notify the parent or eligible student of the time and place where the records may be inspected.

When a record contains information about students other than a parent's child or the eligible student, the parent or eligible student may not inspect and review the portion of the record which pertains to other students.

Copies of Education Records

The Bath County Public Schools will not provide a parent or eligible student a copy of the student's education record unless failure to do so would effectively prevent the parent or eligible student from exercising the right to inspect and review the records.

Fees for Copies of Records

The fee for copies will be \$0.25 per page. The actual cost of copying time and postage will be charged. The Bath County Public Schools does not charge for search and retrieval of the records. The Bath County Public Schools does not charge a fee for copying an Individualized Education Plan (IEP) or for a copy of the verbatim record of a hearing conducted in accordance with the State Board of Education's Regulations Governing Special Education Programs for Children with Disabilities in Virginia.

Types, Locations, and Custodians of Education Records

The Bath County Public School shall provide parents on request a list of the types and locations of education records collected, maintained, or used by the school division.

The following is a list of the types of records that the Bath County Public Schools maintain, their locations, and their custodians.

Types	Location	Custodian	Information
Permanent and Cumulative Records	School Office	Principal	Health, Academic, Discipline, etc.

Disclosure of Education Records

The Bath County Public Schools discloses education records or personally identifiable information contained therein only with the written consent of the parent or eligible student except as authorized by law. Exceptions which permit the school division to disclose education record information without consent include the following.

1. To school officials who have a legitimate educational interest in the records. A school official is:
 - a person employed by the School Board
 - a person appointed or elected to the School Board
 - a person employed by or under contract to the School Board to perform a special task, such as an attorney, auditor, medical consultant, or therapist
 - a contractor, consultant, volunteer, or other party to whom the school division has outsourced services or functions for which the school division would otherwise use employees and who is under the direct control of the school division with respect to the use and maintenance of education records

A school official has a legitimate educational interest if the official is:

 - performing a task that is specified in his or her position description or by a contract agreement
 - performing a task related to a student's education
 - performing a task related to the discipline of a student
 - providing a service or benefit relating to the student or student's family, such as health care, counseling, job placement, or financial aid
2. To officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll or where the student is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.
3. To certain officials of the U.S. Department of Education, the United States Attorney General, the Comptroller General, and state educational authorities, in connection with certain state or federally supported education programs and in accordance with applicable federal regulations.
4. In connection with a student's request for or receipt of financial aid as necessary to determine the eligibility, amount, or conditions of the financial aid, or to enforce the terms and conditions of the aid.

5. For the purpose of furthering the ability of the juvenile justice system to effectively serve the pupil prior to adjudication. The principal or his designee may disclose identifying information from a pupil's scholastic record to state or local law enforcement or correctional personnel, including a law-enforcement officer, probation officer, parole officer or administrator, or a member of a parole board, seeking information in the course of his duties; an officer or employee of a county or city agency responsible for protective services to children, as to a pupil referred to that agency as a minor requiring investigation or supervision by that agency; attorneys for the Commonwealth, court services units, juvenile detention centers or group homes, mental and medical health agencies, state and local children and family service agencies, and the Department of Juvenile Justice and to the staff of such agencies. Prior to disclosure of any such scholastic records, the persons to whom the records are to be disclosed shall certify in writing to the principal or his designee that the information will not be disclosed to any other party, except as provided under state law, without the prior written consent of the parent of the pupil or by such pupil if the pupil is eighteen years of age or older.
6. To organizations conducting studies for, or on behalf of, educational agencies or institutions to develop, validate or administer predictive tests; administer student aid programs; or improve instruction. The studies must be conducted in a manner that does not permit personal identification of parents and students by individuals other than representatives of the organization that have legitimate interests in the information. The information must be destroyed when it is no longer needed for the purposes for which the study was conducted. The School Board must enter into a written agreement with the organization conducting the study which
 - specifies the purpose, scope, and duration of the study or studies and the information to be disclosed;
 - requires the organization to use personally identifiable information from education records only to meet the purpose or purposes of the study stated in the written agreement;
 - requires the organization to conduct the study in a manner that does not permit personal identification of parents and students by anyone other than representatives of the organization with legitimate interests; and
 - requires the organization to destroy all personally identifiable information when the information is no longer needed for the purposes for which the study was conducted and specifies the time period in which the information must be destroyed.
7. To accrediting organizations to carry out their functions.
8. To parents of an eligible student who claim the student as a dependent for income tax purposes.
9. To the entities or persons designated in judicial orders or subpoenas as specified in FERPA.
10. To appropriate parties in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals. If the school division releases information in connection with an emergency, it will record the following information:
 - the articulable and significant threat to the health or safety of a student or other individuals that formed the basis for the disclosure; and
 - the parties to whom the division disclosed the information.
11. To an agency caseworker or other representative of a state or local child welfare agency or tribal organization who has the right to access a student's case plan when such agency or organization is legally responsible for the care and protection of the student.

12. Directory information so designated by the school division.
13. When the disclosure concerns sex offenders and other individuals required to register under section 170101 of the Violent Crime Control and Law Enforcement Act of 1994, 42 U.S.C. § 14071, and the information was provided to the division under 42 U.S.C. § 14071 and applicable federal guidelines.

The school division will use reasonable methods to identify and authenticate the identity of parents, students, school officials, and any other parties to whom it discloses personally identifiable information from education records.

Unauthorized Disclosure of Electronic Records

In cases in which electronic records containing personally identifiable information are reasonably believed to have been disclosed in violation federal or state law applicable to such information, the school division shall notify, as soon as practicable, the parent of any student affected by such disclosure, except as otherwise provided in Va. Code §§ 32.1-127.1:05 or 18.2186.6. Such notification shall include the (i) date, estimated date, or date range of the disclosure; (ii) type of information that was or is reasonably believed to have been disclosed; and (iii) remedial measures taken or planned in response to the disclosure.

Disclosure to Federal Agencies

Notwithstanding any other provision of law or policy, no member or employee of the Bath County School Board will transmit personally identifiable information, as that term is defined in FERPA and related regulations, from a student's record to a federal government agency or an authorized representative of such agency except as required by federal law or regulation.

Disclosure of Information Relating to Home Instructed Students

Neither the superintendent nor the School Board shall disclose to the Department of Education or any other person or entity outside of the local school division information that is provided by a parent or student to satisfy the requirements of Policy LBD Home Instruction or subdivision B 1 of Va. Code § 22.1-254. However, the superintendent or School Board may disclose, with the written consent of a student's parent, such information to the extent provided by the parent's consent. Nothing in this policy prohibits the superintendent from notifying the Superintendent of Public Instruction of the number of students in the school division receiving home instruction.

Audit or Evaluation of Education Programs

Authorized representatives of the Comptroller General of the United States, the Attorney General of the United States, the federal Secretary of Education, and state and local educational authorities may have access to education records in connection with an audit or evaluation of federal- or state- supported education programs, or for the enforcement of or compliance with federal legal requirements that relate to those programs.

Any authorized representative other than an employee must be designated by a written agreement which

- designates the individual or entity as an authorized representative;
- specifies the personally identifiable information to be disclosed, specifies that the purposes for which the personally identifiable information is disclosed to the authorized representative is to carry out an audit or evaluation of federal- or state supported education programs, or to enforce or comply with federal legal requirements that relate to those programs; and specifies a description of the activity with sufficient specificity to make clear that the work falls within the exception of 34 CFR § 99.31(a)(3) including a description of how the personally identifiable information will be used;
- requires the authorized representative to destroy personally identifiable information when the information is no longer needed for the purpose specified;
- specifies the time period in which the information must be destroyed; and
- establishes policies and procedures, consistent with FERPA and other federal and state confidentiality and privacy provisions, to protect personally identifiable information from further disclosure and unauthorized use, including limiting use of personally identifiable information to only authorized representatives with legitimate interests in the audit or evaluation of a federal- or state-supported education program or for compliance or enforcement of federal legal requirements related to such programs.

Military Recruiters and Institutions of Higher Learning

Bath County Public Schools provides, on request made by military recruiters or an institution of higher education, access to secondary school students' names, addresses and telephone listings unless a parent or eligible student has submitted a written request that the student's name, address and telephone listing not be released without the prior written consent of the parent or eligible student. The school division notifies parents of the option to make a request and complies with any request.

The school division provides military recruiters the same access to secondary school students as is provided generally to post-secondary educational institutions or to prospective employers of those students.

Record of Disclosure

Bath County Public Schools maintains a record, kept with the education records of each student, indicating all individuals (except school officials who have a legitimate educational interest in the records), agencies or organizations which request or obtain access to a student's education records. The record will indicate specifically the legitimate interest the party had in obtaining the information. The record of access will be available only to parents, to the school official and his assistants who are responsible for the custody of such records and to persons or organizations which audit the operation of the system.

The requirements related to records of disclosure stated above do not apply to disclosures made pursuant to an ex parte order issued by a court at the request of the United States Attorney General (or any federal officer or employee, in a position not lower than an Assistant Attorney General, designated by the Attorney General) seeking to collect education records relevant to an authorized investigation or prosecution of international terrorism as defined in 18 U.S.C. § 2331 or other acts listed in 18 U.S.C. § 2332b(g)(5)(B).

Personal information will only be transferred to a third party on the condition that such party will not permit any other party to have access to such information without the written consent of the parents of the student. If a third party permits access to information, or fails to destroy information, the division will not permit access to information from education records to that third party for a period of at least five years.

Directory Information

The Bath County School Board notifies parents and eligible students at the beginning of each school year what information, if any, it has designated as directory information, the right to refuse to let the division designate any or all of such information as directory information, and the period of time to notify the division, in writing, that he or she does not want any or all of those types of information designated as directory information. The notice may specify that disclosure of directory information will be limited to specific parties, for specific purposes, or both. If the School Board specifies that disclosure of directory information will be so limited, the disclosures of directory information will be limited to those specified in the public notice.

No school discloses the address, telephone number, or email address of a student pursuant to the Virginia Freedom of Information Act unless the parent or eligible student affirmatively consents in writing to such disclosure. Except as required by state or federal law, no school discloses the address, telephone number, or email address of a student pursuant to 34 C.F.R. § 99.31(a)(11) unless (a) the disclosure is to students enrolled in the school or to school board employees for educational purposes or school business and the parent or eligible student has not opted out of such disclosure in accordance with Virginia law and this policy or (b) the parent or eligible student has affirmatively consented in writing to such disclosure.

Parents and eligible students may not use the right to opt out of directory information disclosures to 1) prevent disclosure of the student's name, identifier or institutional email address in a class in which the student is enrolled; or 2) prevent an educational agency or institution from requiring the student to wear, to display publicly or to disclose a student ID card or badge that exhibits information designated as directory information and that has been properly designated as directory information.

Directory information is information contained in a student's education record that would not generally be considered harmful or an invasion of privacy if disclosed. Directory information may include information such as the name, gender, address, telephone listing, date and place of birth of students, the student's major field of study, participation in officially recognized activities and sports, the weight and height of members of athletic teams, dates of attendance, degrees or awards received by students, and photographs. Directory information may not include the student's social security number.

Correction of Education Records

The procedures for the amendment of records that a parent or eligible student believes to be inaccurate are as follows.

1. Parents or the eligible student must request in writing that the Bath County Public Schools amend a record. In so doing, they should identify the part of the record they want changed and specify why they believe it is inaccurate, misleading or in violation of the student's privacy or other rights.
2. Bath County Public Schools shall decide whether to amend the record in accordance with the request within a reasonable period of time. If it decides not to comply, the school division shall notify the parents or eligible student of the decision and advise them of their right to a hearing to challenge the information believed to be inaccurate, misleading or in violation of the student's rights.
3. Upon request, Bath County Public Schools shall arrange for a hearing, and notify the parents or eligible student, reasonably in advance, of the date, place and time of the hearing. The hearing shall be held within a reasonable period of time after the request.
4. The parent or eligible student may, at his or her own expense, be assisted or represented by one or more individuals of his or her own choice, including an attorney.
5. The hearing shall be conducted by a hearing officer who is a disinterested party; however, the hearing officer may be an official of the school division. The parents or eligible student shall be afforded a full and fair opportunity to present evidence relevant to the issues raised in the original request to amend the student's education records in accordance with FERPA.
6. Bath County Public Schools shall prepare a written decision which will include a summary of the evidence presented and the reasons for the decision within a reasonable period of time after the hearing. The decision will be based solely on the evidence presented at the hearing.
7. If Bath County Public Schools decides that the information is inaccurate, misleading or in violation of the student's right of privacy, it shall amend (including expungement) the record and notify the parents or eligible student, in writing, that the record has been amended.
8. If Bath County Public Schools decides that the challenged information is not inaccurate, misleading or in violation of the student's right of privacy, it will notify the parents or eligible student that they have a right to place in the record a statement commenting on the challenged information and/or a statement setting forth reasons for disagreeing with the decision. The statement will be maintained as part of the student's education records as long as the contested portion is maintained and disclosed whenever the school division discloses the portion of the record to which the statement relates.

Confidentiality of HIV and Drug and Alcohol Treatment Records

Bath County Public Schools complies with the confidentiality requirements of Va. Code § 32.1-36.1 providing for the confidentiality of records related to any test for Human Immunodeficiency Virus (HIV). In addition, the school division maintains confidentiality of drug and alcohol treatment records as required by federal and state law.

SEX OFFENDER REGISTRY NOTIFICATION

The Bath County school division recognizes the danger sex offenders pose to student safety. Therefore, to protect students while they travel to and from school, attend school or are at school-related activities, each school in the Bath County school division shall request electronic notification of the registration or reregistration of any sex offender in the same or contiguous zip codes as the school. Such requests and notifications shall be made according to the procedure established by the Virginia Department of State Police (State Police).

Annual Notification

At the beginning of each school year, the Bath County school division shall notify parents and employees of this policy. The school board will also annually notify the parent of each student enrolled in the school division of the availability of information in the Sex Offender and Crimes Against Minors Registry and the location of the Internet website.

Dissemination of Sex Offender Registry Information

Sex offender registry information should be provided to employees who are most likely to observe unauthorized persons on or near school property including but not limited to:

- school bus drivers
- employees responsible for visitor registration
- employees responsible for bus duty
- security staff
- coaches
- playground supervisors, and
- maintenance personnel.

When registry information is disseminated, it shall include a notice that such information should not be shared with others and may only be used for the purposes discussed below. Employees who share registry information with others may be disciplined.

The Bath County school division recognizes that it is the responsibility of local law enforcement to notify the community of potential public danger. Therefore, the division will not disseminate registry information to parents.

Use of Sex Offender Registry Information

Registry information shall only be used for the purposes of the administration of law-enforcement, screening current or prospective school division employees or volunteers and for the protection of school division students and employees. Registry information shall not be used to intimidate or harass others.

1. Registered Sex Offender Sighted. If a notified employee sees a registered sex offender on or near school property, around any school division student, or attending any school division activity, the Superintendent or his designee shall be notified immediately. The Superintendent or his designee may, in his or her discretion, notify local law-enforcement.

2. School Volunteers and Student Teachers. Each staff member shall submit to the Principal the name and address of each volunteer the staff member proposes to use as soon as the person is identified. The Principal shall screen each student teacher and volunteer's name and address against the registry information. If a match is found, the Principal shall notify the Superintendent, who shall confirm the match. If the match is confirmed, the Superintendent shall inform the individual, in writing, that he or she may not serve as a volunteer or student teacher. The notice shall provide the reason with reference to this policy. The Superintendent shall provide a copy of the notice to the Principal and staff member.
3. Contractors' Employees. In addition to ensuring that the certification requirements of Policy DJF Purchasing Procedures are met, the Superintendent shall include the following language in all Division contracts that may involve an employee of the contractor having any contact with a student:

The contractor shall not send any employee or agent who is a registered sex offender to any school building or school property. Monthly, the contractor shall check the registry to determine if any employee is registered.

4. School Division Employees. Each time sex offender registry information is received, the principal shall review it to determine if a school division employee is registered. If a match is found, the Superintendent shall confirm or disprove the match with local law enforcement. If the match is confirmed, the Superintendent shall notify the School Board. The School Board will take the appropriate action to comply with state law which may include termination of employment.
5. Applicants for Employment. Before hiring any person, the Superintendent shall determine whether the prospective employee is a registered sex offender. If the prospective employee is a registered sex offender, he or she shall not be hired by the division.
6. Parents of Students and other Visitors.

Persons who have been convicted of a sexually violent offense, as defined in Va. Code § 9.1-902, may be present at school during school hours or during school related or school sponsored activities, on any school bus, or on any property, public or private, when such property is solely being used by an elementary or secondary school for a school-related or school-sponsored activity only as provided in Policy KNA Violent Sex Offenders on School property.

When the school division learns that a parent of an enrolled student is a registered sex offender, other than a violent sex offender, the parent will be notified in writing that he or she is barred from being present at school or at school functions without the express written approval of the student's principal. Such approval must be obtained in advance of the proposed visit and will state the conditions under which the parent may be present.

When a parent who is a registered sex offender is permitted at school or at school functions he or she will be monitored to ensure that he or she does not come into contact with any children other than his or her own children. Principals will consider requests from registered sex offenders in accordance with procedures prescribed by the superintendent.

When the school division learns that any person other than the parent of an enrolled student who is a registered sex offender, other than a violent sex offender, seeks to be present at school or at school functions, he or she will be notified in writing that he or she is barred from being present at school or school functions without the express written approval of the principal of the school the person seeks to visit or which sponsors the event the person seeks to attend. Such approval must be obtained in advance of the proposed visit and, if obtained, will state the conditions under which the person may be present. One of the conditions will be that the person will be monitored to ensure the safety of students, staff, and others. Principals will consider requests from registered sex offenders in accordance with procedures prescribed by the superintendent.

7. Precautions to Protect Students. When the Superintendent determines it is necessary, because of the presence of a registered sex offender, alternative arrangements may be made for bus and walking routes to and from school, recess and physical education periods, or any other activity in order to protect division students.

Requests for Registry Information

Anyone requesting registry information from the school division shall be referred to the State Police.
